## GMS TECHNICAL SERVICES & THE WAYPOINTS PROGRAM

### **ISO Standard 17021:2015 Accredited**

In June 2020, GMS TS received its accreditation certificate for ISO 17021:2015 after adopting a robust Quality Management System for bodies providing Auditing services and Certification for:

- Environmental Management Systems
- Quality Management Systems
- Safety Management Systems
- Security management Systems
- Information Management Systems

### **mAuditor App-based Audits and Inspections**

As innovative leaders in what we do, we recognized early that the maritime world will increasingly use app-based products for management of inspections, audits, logistics, maintenance and other critical management functions. In Jan 2020 GMS-TS adopted this app-based auditing and inspections tool.

(For more information, visit the mAuditor website [here](#))

### **Personnel:**

GMS has qualified and experienced personnel strategically located in the U.S. and several major ports world-wide. Our personnel are certified ISO Lead Auditors with extensive experience specific to several types of audits, inspections, and trainings. They are former Masters, Chief Engineers, Class Surveyors, U.S. Coast Guard Officers, and Port State Control officials. Several have held positions of senior management in Technical and HSSEQ departments with major ship operators.

In previous years, GMS Technical Services personnel have annually attended in excess of 300 ships to conduct inspections, audits, training, investigations, independent assessments, etc.

### **Services:**

GMS Technical Services personnel regularly conduct the below described services for several shipping companies located around the globe.

- U.S. Department of Justice (DOJ) mandated Environmental Compliance Programs (ECP)
- Voluntary Environmental Assessment & Conformance Audit (VEACA)

**WAYPOINTS Program:**

GMS provides quality Technical Services as listed above under its “Worldwide Port Captaincy & Technical Services (WAYPOINTS)” program. This service includes 24 hour world-wide first response capabilities anchored with local expertise that deals with all aspects of ship emergency response and ship attendance services.

The primary objective of WAYPOINTS is to provide the quickest, most cost-effective service rooted in expert professionalism and armed with local knowledge and contacts.

To achieve this, The GMS Technical Services Department has set up a network of GMS representatives who are amongst the best professionals providing a full range of shipping related services. The network consists of experienced and established organizations covering all major shipping hubs. These professionals have been carefully chosen and are well equipped to undertake, perform, and satisfactorily complete services on a worldwide basis.

GMS has offices located in New Jersey, Houston, Los Angeles, Piraeus, Tokyo, and Naples.

Additionally, to ensure that our offered services are global, the GMS Technical Services Department has established a network of representatives at principal ports strategically located in:

- U.S.A., Canada, & the Caribbean Region – Covering South American locations
- Mexico & Latin America
- Rio di Janeiro, Brazil – Also servicing Argentinian ports
- Europe – Hamburg
- Mediterranean – Cyprus, Greece, & Italy (Covering North Africa)
- Lagos, Nigeria
- Dubai, U.A.E. – Covering Entire Middle East
- India, Mumbai – Covering Entire Indian Subcontinent (India, Pakistan, Bangladesh, & Sri Lanka)
- Singapore – Covering Entire Far East (Hong Kong, China and Korea)
- China – Beijing, covering all Chinese ports
- Japan, Tokyo – Covering All Japanese Ports & Islands
- Sydney & Melbourne, Australia – Covering Australia & Pacific Islands.
- New Zealand – Covering Auckland, Wellington, & All New Zealand.
